## INTRODUCTION

As a leading FIBC (Flexible Intermediate Bulk Container) manufacturer, we pride ourselves on delivering top-quality products that meet the diverse needs of industries worldwide.

At our company, we understand the critical role that FIBCs play in optimizing storage, transportation, and handling of bulk materials. With our state-of-the-art manufacturing facilities and a team of skilled professionals, we strive to provide innovative solutions tailored to your specific requirements.

We believe in going beyond just delivering products. Our commitment to customer satisfaction extends to providing exceptional service and support. Our knowledgeable team is always ready to assist you, answering your questions and helping you make informed decisions.

In addition to our commitment to quality and service, we prioritize sustainability and environmental responsibility. Our FIBCs are designed with durability and reusability in mind, reducing waste and promoting a greener future.

## CORE TEAM

Our core team includes highly experienced people of the Indian FIBC industry with combined experience of more than 4 decades.

## CERTIFICATION

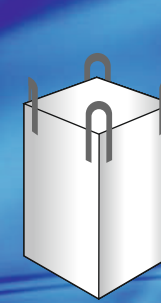

All of our Flexible Intermediate Bulk Container (FIBC) bags are manufactured in compliance with the internationally recognized standard ISO 21898. Furthermore, our existing production facility holds ISO 9001:2015 certification, signifying our commitment to maintaining high quality standards.

In line with our dedication to excellence, our upcoming state-of-the-art production facility, currently in the construction phase, will be equipped with additional certifications, namely ISO 14000, Sedex, and EcoVadis. These certifications enjoy global recognition and emphasize our commitment to environmentally sustainable practices.

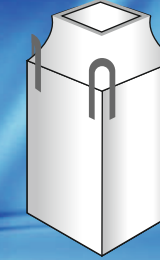

To further expand our capabilities, we have plans to establish a clean room production facility in the near future. This facility will be BRC certified, ensuring compliance with the stringent standards required for producing Food Grade bags.

PP Natural Sheet | Ventilated Fabric

## INDUSTRIES WE SERVE

Seeds & Fertilizer  
Agriculture  
Chemical  
Mining/Mineral  
Used clothing and Mixed Rags  
Construction

## WHY CHOOSE INDUSTRIAL BAG PACKAGING?

- **Unparalleled Quality:** Our FIBCs are manufactured using premium-grade materials and adhere to strict quality standards. We employ state-of-the-art production techniques and conduct rigorous quality checks at every stage to ensure that our products meet and exceed your expectations.
- **Customization Options:** We understand that every business has unique requirements. That's why we offer customizable FIBCs to suit your specific needs. From size and capacity to colour and printing, we can tailor our products to reflect your brand identity and optimize efficiency in your operations.
- **Expertise and Experience:** With years of experience in the industry, we possess in-depth knowledge of FIBC manufacturing. Our team of skilled professionals is dedicated to delivering superior products and exceptional customer service. We work closely with you to understand your requirements and provide expert guidance throughout the process.
- **Sustainable Solutions:** At Industrial Bag Packaging, we are committed to environmental stewardship. We offer eco-friendly FIBCs made from recyclable materials and incorporate sustainable practices into our manufacturing process. By choosing our products, you contribute to a greener future while ensuring the highest level of performance.
- **Timely Delivery:** We understand the importance of time in your business operations. Our streamlined production processes and efficient supply chain management enable us to deliver your FIBCs on time, every time. Count on us for prompt and reliable service that keeps your business running smoothly.

## SUSTAINABILITY & CIRCULAR ECONOMY:

At Industrial Bag Packaging, we firmly embrace the principle that "We Do Not Inherit the Earth from Our Ancestors; We Borrow It from Our Children." Recognizing the urgency of sustainability, we have made it a core value and are deeply committed to reducing our carbon footprint.

### Sustainability & Circular Economy:

- Industrial Bag Packaging (IBP) is deeply committed to environmental sustainability.
- Manufacturing processes focus on resource efficiency, waste reduction, and eco-friendly materials.
- Reusable and recyclable FIBCs are offered, minimizing carbon footprint and promoting a greener future.
- New FIBC made from 30% recycled material, maintaining strength and safety while reducing environmental impact.

### Sustainable Production Unit:

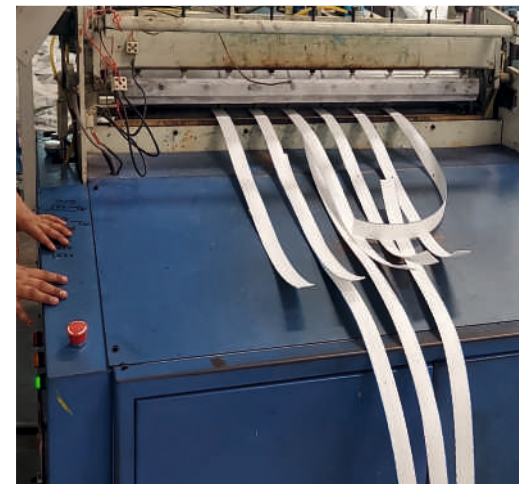

- IBP is constructing a new production unit incorporating various sustainable practices.
- Rooftop solar panels will provide 35-40% of energy consumption from renewable sources, reducing reliance on conventional power grids and carbon emissions.
- Rainwater harvesting systems are implemented to efficiently collect and utilize rainwater, reducing strain on local water resources.

### Creating a Green Ecosystem:

- Extensive tree plantations and green spaces are planned around the production facility.
- Trees enhance aesthetics, improve air quality, promote biodiversity, and contribute to overall environmental well-being.

### Commitment to Sustainability:

- Sustainability is a fundamental part of IBP's business philosophy.
- Investing in renewable energy, implementing rainwater harvesting, and creating a green ecosystem are key initiatives.
- The goal is to make a positive difference and inspire others to join in building a greener and more sustainable world.

\*Liner Plant & Rig Testing would be installed in new facility.
